## 55-70 & 55-70<sup>PLUS</sup>

LUXURY VINYL TILES

Renovation  
has never been  
so swift, stylish  
and robust

## EDITO

**iD Click Ultimate grows stronger to take rigid surface flooring to the next level.**

Now, you can combine the look, feel and strength of wood and stone with all the advantages of luxury vinyl tiles. With iD Click Ultimate you can deliver perfect installations in a minimum time, and easily **meet the needs of all your clients**, even the most demanding ones.

With a Rigid Composite Core for **extreme resistance** to shocks and heavy loads, photo regulated PUR surface for **easy maintenance** even on **high traffic areas**, Soundblock acoustic backing for **sound absorption** up to 19 dB, an I4F® Click4U technology to simplify installation and **reduce business downtime**, plus 31 exclusive designs and 6 formats, iD Click Ultimate has it all.

# THE NEW VINYL TILE GENERATION: A CONCENTRATE OF TECHNOLOGY

**NEW!**  
Rigid Composite  
Core Technology

**1**  
The **PUR Ultimate matte** surface treatment is a photo-reticulated coating that is exceptionally resistant to abrasion and scratches.

**2**  
A **high definition** decorative layer includes lifelike embossing in register on our PLUS references.

**3**  
**Rigid Composite Core (RCC) technology** provides extreme dimensional resistance and stability, ensuring a reliable and durable performance.

**4**  
The acoustic backing featuring **Soundblock technology** absorbs 19dB.

**5**  
Installation is fast and easy thanks to new **I4F Click4U technology**. Simply drop, lock and click into place.

iD Click's Ultimate's extra density RCC technology delivers in every dimension:

**Wear-proof:**  
Ideal to cover large spaces and withstand high traffic.  
RCC technology has the highest density on the market (**2000Kg/m³**), making it the most resistant to sustain indentation and heavy loads.

**High traffic-Proof:**  
up to **800\*** kg static and rolling heavy loads  
**0,02mm** residual indentation

**ULTIMATE ACOUSTIC COMFORT**  
**Noise-proof:**

**19dB** sound absorption  
thanks to Soundblock technology.

**Save money**  
With iD Click Ultimate integrated acoustic backing, no need for additional acoustic underlay.

**ULTIMATE INSTALLATION**

**Renovation-proof:**  
· Install directly over ceramic tiles and most existing subfloors  
· Quick and easy installation thanks to I4F Click4U new click system  
· Minimise downtime and use immediately

**100** sqm installed **in 8** hours by 1 person

**No glue, no drying time**

\*800 kg refers to our 0.70 wear layer references.  
Our 0.55 wear layer designs can bear up to 500kg static and rolling heavy loads.

# TOUGHEN UP YOUR FLOORS FOR INTENSE USE

iD Click Ultimate's **extra-dense Rigid Composite Core** sets a new product benchmark in terms of its **durability and resistance**. It withstands all scratches, scuffs, indentations and abrasions, maintains **dimensional stability** at high heat and can be installed directly over most existing subfloors.

## ULTIMATE RESISTANCE

**Wear-Proof:**  
Resistant to indentation, abrasion, scratches and scuffs

Meeting class 34-high traffic standards, large areas of iD Click Ultimate can bring extraordinary resistance to large surface areas in professional or light industrial environments that see intense use and activity, thanks to its **extra-dense Rigid Composite Core**.

### Wear Resistance tests

	SCUFF RESISTANCE <sup>1</sup> (1: worst to 10: no scuff)	ABRASION <sup>2</sup> (in µm)	INDENTATION <sup>3</sup> (in mm)
<b>Rigid Core iD Click Ultimate</b>	8,7	44	0,02
<b>Rigid Core Product A</b>	7,3	51	0,09
<b>Rigid Core Product B</b>	7,3	52	0,06
<b>Rigid Core Product C</b>	4,7	79	0,05

1. Internal Tarkett scuff test (1: worst to 10: no scuff)

2. Internal test: microscope analysis of loss of thickness after abrasion test (in µm)

3. Indentation test (According to norm ISO 24343-1 test in mm)

**High traffic-Proof:**  
Endures high traffic and heavy loads

Install up to **400sqm** (20x20 linear meters) without any expansion profiles.

**Resistance to heavy loads:** iD Click Ultimate can support static and rolling heavy loads (manual pallet lift and trolley) up to **800kg** installed on an even subfloor and is fit for deployment in light industrial area and supermarkets.

**Resistance to indentation:** In addition, this extremely resistant flooring provides an outstanding residual indentation behavior of **0,02mm** (according to Norm EN ISO 24343-1), which minimises the risk of indentation marks by heavy loads.

\*800 kg refers to our 0.70 wear layer references.

Our 0.55 wear layer designs can bear up to 500kg static and rolling heavy loads.

ENGLISH OAK  
VANILLA  
24736 009

**Stain-Proof:**  
Resists stains, easy to clean

Ultimate PUR surface treatment protects the floor from stains and facilitates cleaning.

### ULTIMATE THERMOSTABILITY

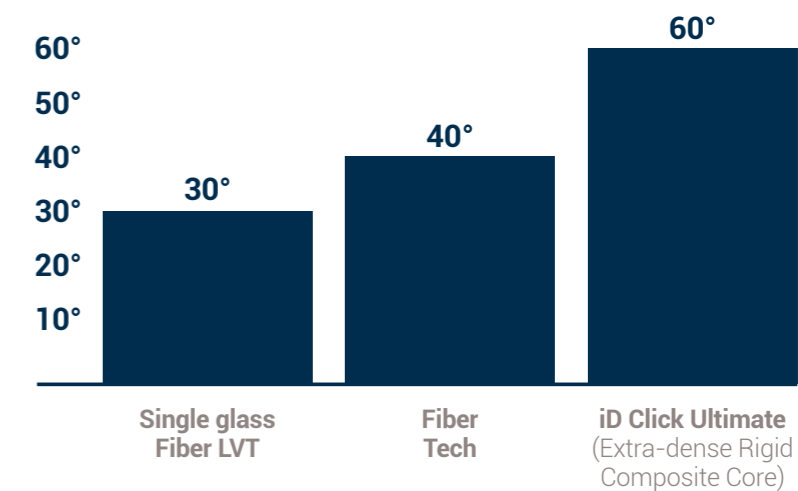

**Environment-Proof:**  
Withstands temperature extremes and water

Neither water, cold nor heat can alter iD Click Ultimate's appearance. It maintains excellent dimensional stability in extreme temperature variations.

From **10°C to 60°C**, no deformation over time

Maximum temperature of the floor allowed after installation (°C)

## OPEN UP YOUR SPACE FOR **IMMEDIATE USE**

**iD Click Ultimate reduces business downtime to a strict minimum, since it requires no or little subfloor preparation\*, no gluing and no waiting. Install and go!**

### ULTIMATE INSTALLATION

**Renovation-proof:  
Place directly over ceramic tiles and most existing subfloors**

Little or no special subfloor treatment\* is required before installation and subfloor imperfections are greatly minimised thanks to the structure and design of our flooring.

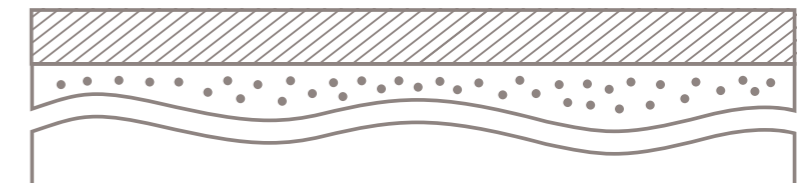

### Rigid Composite Core stiffness

Install on ceramics with joints up to 8mm width and 3mm depth.

### Foam backing

Our iD Click Ultimate tiles have a foam backing that covers subfloor imperfections. For a perfectly even floor.\*

\* Each project is unique, check our installation notice for more details.

CONTEMPORARY OAK

24836 004

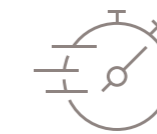

### Click it quick and easy

For iD Click Ultimate, Tarkett has integrated the **14F Click4U** locking system, which combines an angle-system for the long side of the planks and a 3L TripleLock on the short side. 3L TripleLock is a unique one piece drop-lock system that eliminates the need for additional plastic inserts making it up to **30% faster** to install than a traditional angle-angle click system. It provides a high locking strength and minimises squeaking, delivering one of the easiest and fastest click systems on the market.

Up to **30%** faster than a traditional angle-angle click system

**100**sqm of flooring installed in **8** hours by 1 person

### Install and walk

Everything about iD Click Ultimate makes it fast to install and ready for immediate use.

No glue, no drying time

Up to **400**sqm with no expansion profiles  
(Rooms of 20x20m)

# SOAK UP NOISE THROUGH THE FLOOR

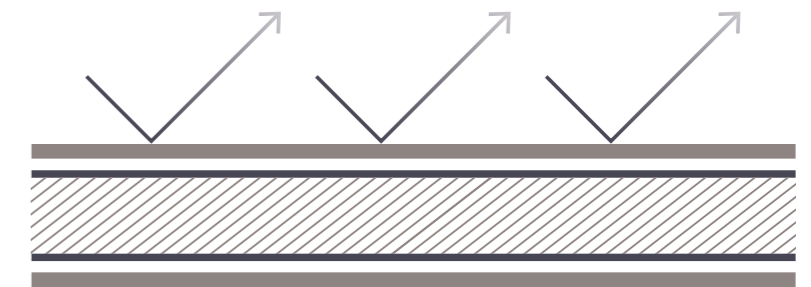

iD Click Ultimate's acoustic backing has Soundblock Technology integrated, creating more peaceful interior environments everywhere, from hotel rooms to offices.

## ULTIMATE COMFORT

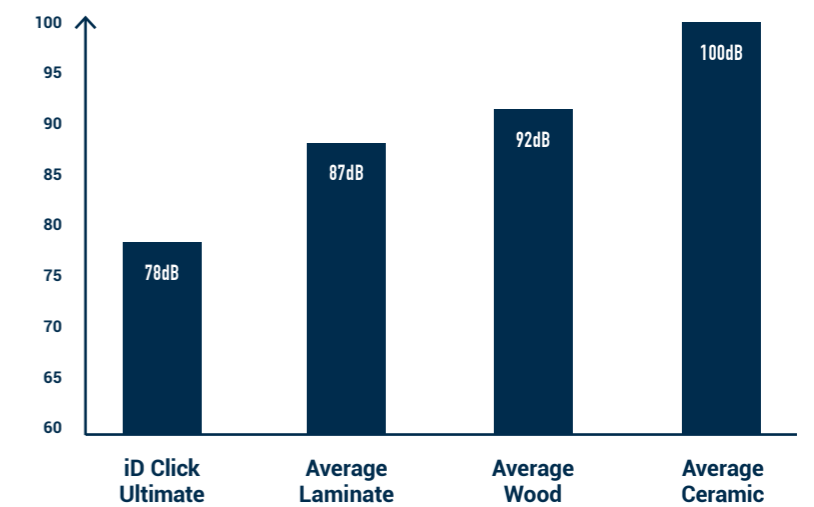

**Noise-proof:  
Decrease in-room sound**

The exclusive structure of iD Click Ultimate ensures the lowest in-room walking noise compared to any other hard floor solution.

In-room walking noise (dB)

**Save money**

With iD Click Ultimate integrated acoustic backing, no need for additional acoustic underlay.

 **Dampen  
the noise**

Reduce sound transmission between floors to 19dB.

Dampen noise levels in rooms and between floors

A modern living room is set within a large, vaulted stone archway. The walls are made of rough-hewn stone, and the ceiling features a series of overlapping arches. A large, arched window with a wooden frame and multiple panes is the focal point at the far end of the room. The floor is a smooth, light-colored polished concrete. In the center, a large, patterned rug in shades of red, pink, and blue is laid out. Several pieces of contemporary furniture are arranged on the rug: a long grey sofa with dark cushions and a teal throw pillow, a smaller grey sofa, and a grey armchair. There are also several round, low-profile ottomans in teal and pink, and small round coffee tables with gold-colored frames. The lighting is warm and even, highlighting the textures of the stone and the colors of the furniture.

## MIX WITH CARPET FOR CAPTIVATING INTERIORS

iD Click Ultimate flooring and DESSO carpet tile products are simply the perfect fit. The slight difference in height between both floors (maximum 2,5mm\*) allows for a smooth transition.

\*We advise keeping a height difference of maximum 2.5 mm between Carpet tiles and LVT.

## Doing Good. Together.

At Tarkett, we strive to support both our professional clients and consumers in creating healthy, beautiful and sustainable living spaces. Working with industry partners, we're bringing our best thinking and efforts toward making a positive impact on people and the planet.

### We are designing for life

We design our flooring solutions for life, thereby contributing to people's well-being and good health as well as preserving natural resources. Through low levels of total volatile organic compounds (TVOCs) – TVOCs  $\leq 100 \mu\text{g}/\text{m}^3$ , compliant to EU standard EN-ISO 16000, iD Click Ultimate contributes to good indoor air quality and is 100% phthalate free for a healthier indoor environment. Through our focus on Cradle to Cradle® design, we make our products in a way that helps to preserve natural resources and mitigate climate change.

### We are closing the loop

We recycle waste from our production, transforming it into new, high quality products. In this way, we can contribute to safeguarding the world's natural resources and protecting the environment, and by closing the loop, shift to a circular economy.

### We're driving collaboration

The world's great sustainability challenges require co-operation and partnership across industries and supply chains. We encourage our customers and all our stakeholders to join us in working toward positive change. Importantly, we communicate our sustainability progress transparently, and provide you with clear information about our products and ambitions.

## Doing Good. Together.

Every day, we strive to improve people's lives, preserve natural resources and respect our environment.

# TENDER DATASHEET

## iD Click Ultimate 55-70

The selected flooring similar to iD Click Ultimate belongs to the compact vinyl floors category with a Rigid Composite Core layer manufactured through extrusion process and a density of 2000kg/m<sup>3</sup>.

It also contains an integrated acoustic backing of 19db.

It is available in planks (17.60x121.30 cm; 20.05x120.00 cm, 24.30x150.00 cm) and tiles (24.30x48.60 cm; 48.00x48.00 cm; 48.00x96.00 cm) formats

The product is available with a wear-layer of 0,70mm (iD Click Ultimate 70) and a wear-layer of 0,55mm (iD Click Ultimate 55). The wear layer is reinforced with a PU treatment, which permanently suppresses any wax and regenerating polish spray maintenance operations.

It has a static indentation resistance  $\leq 0,02$ mm and a dimensional stability  $\leq 0,05\%$  according to EN ISO 23 999.

iD Click Ultimate can sustain heavy static and rolling loads up to 800 kg (iD Click Ultimate 70) or 500Kg (iD Click Ultimate 55).

Its emission rate of volatile organic compounds in air is less than 100  $\mu\text{g} / \text{m}^3$  (COVT after 28 days).

iD Click Ultimate comes with a 10 Year warranty.
